**SUPPLEMENTARY INFORMATION:** This ICR seeks PRA authority for the America's Promise Job-Driven Grant Program Evaluation information collection to support an implementation and impact evaluation. The America's Promise program aims to create or expand regional partnerships that will identify the needs of specific industry sectors relying on the H-1B visa program to hire skilled foreign workers and prepare the domestic workforce for middle- and high-skilled, high-growth jobs in those sectors. This evaluation offers a unique opportunity to build knowledge about the implementation and effectiveness of these regional partnerships. The information collections consist of a grantee survey and a partner network survey. American Competitiveness and Workforce Improvement Act section 169 authorizes this information collection. *See* 29 U.S.C. 3224(a).

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. *See* 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the *Federal Register* on July 12, 2017 (82 FR 32204).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the *Federal Register*. In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201801-1290-001. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other

technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
